## DETAILED ACTION

### *Specification*

1. The disclosure is objected to because of the following informalities: In the specification, page 3, last line, before "least", ---"at"--- should be inserted.

Appropriate correction is required.

### *Claim Rejections - 35 USC § 112*

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:  
  
The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.
3. Claims 1-36 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.
4. In claims 2-4, 6-8, 28, and 30, "contacting step" lacks antecedent basis.
5. In claim 5, line 1, "providing step", and at line 4, "immersing step" lack antecedent basis.

Claims 1 and 15, 26 are indefinite in the recitation of "less than about", and "greater than about".

6. A broad range or limitation together with a narrow range or limitation that falls within the broad range or limitation (in the same claim) is considered indefinite, since the resulting claim does not clearly set forth the metes and bounds of the patent protection desired. See MPEP § 2173.05(c). Note the explanation given by the Board of Patent Appeals and Interferences in *Ex parte Wu*, 10 USPQ2d 2031, 2033 (Bd. Pat. App. & Inter. 1989), as to where broad language is followed by "such as" and then

Art Unit: 1746

narrow language. The Board stated that this can render a claim indefinite by raising a question or doubt as to whether the feature introduced by such language is (a) merely exemplary of the remainder of the claim, and therefore not required, or (b) a required feature of the claims. Note also, for example, the decisions of *Ex parte Steigewald*, 131 USPQ 74 (Bd. App. 1961); *Ex parte Hall*, 83 USPQ 38 (Bd. App. 1948); and *Ex parte Hasche*, 86 USPQ 481 (Bd. App. 1949). In the present instance, claims 1, 15 and 26 recite the broad recitation "less than" and "greater than", and the claims also recite "about" which is the narrower statement of the range/limitation.

***Allowable Subject Matter***

7. Claims 1, 15, and 26 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

8. Claims 2-14, 16-25, and 27-36 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

9. The following is a statement of reasons for the indication of allowable subject matter: The prior art of record failed to teach a method and composition for cleaning an article containing contaminants comprising providing a zeotropic solvent composition comprising at least one flammable solvent, at least one first nonflammable solvent, and at least one second nonflammable solvent, having different boiling point, and contacting the article with said zeotropic solvent composition to remove at least portion of the contaminants from said article as claimed.

***Conclusion***

10. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Tanaka et al. (5,288,333) disclose wafer cleaning method and apparatus therefore. Tanaka (5,174,855) discloses surface treating apparatus and method using vapor. Slinn (4,150,493) discloses drying articles.
